

Position: Intern—International Telecom Market Research

Location: Washington, DC

Pay: \$17 per hour

Role: TeleGeography is hiring summer interns to conduct research and database updates in support of several of our research products. Responsibilities include:

- Survey collection, gathering primary data through both email and phone correspondence.
- Research on international network infrastructure development and business communications services.
- Database management, conducting extensive updates of inter-related company datasets.

Requirements: We're looking for current undergraduate/graduate students with the following qualifications.

- An inquisitive and analytical mind.
- Strong research acumen and demonstrated strength in detail-oriented work.
- Adeptness at navigating databases and spreadsheets with an eye for data analysis.
- Outstanding communication skills.
- Foreign language skills are a plus, as much of the research will be conducted with companies outside the U.S.

Due to the extraordinary circumstances surrounding the Covid-19 outbreak, this year's TeleGeography internship will be conducted in a hybrid office/remote work setting. Preference will be given to candidates who are able to work in our D.C. office, but we will consider exceptional candidates who are fully remote.

Company: TeleGeography is a boutique research firm that tracks the development of global communications infrastructure. We're a nimble team that values professionalism, competence, and adaptability. The small size of our workforce and our flexible management hierarchy give each team member exceptional exposure to a variety of functions within the organization.

Our interns come from a variety of backgrounds and go on to do great things. While many of our students specialize in international affairs, they represent a variety of academic fields including commerce, market analytics, policy, and geography. Alumni of the TeleGeography internship go on to pursue careers in business, consulting, law, and diplomacy.

If TeleGeography sounds like a good fit for you, please send both a cover letter and a resume to internship@telegeography.com. No phone calls, please.

"In compliance with federal law, all persons hired will be required to verify identity and eligibility to work in the United States and to complete the required employment eligibility verification document form upon hire."
