

TeleGeography

Now hiring 2025 summer interns.

TeleGeography aims to deliver the most accurate and up-to-date information on the global telecommunications industry, empowering clients to make informed business decisions.

Our work supports telecom operators, equipment vendors, investors, enterprise network operators, and other stakeholders. These clients aren't passive information consumers, but active participants in the global telecom industry.

TeleGeography drives the entire communications landscape forward by providing these users with better industry intelligence.

Interns will join
one of two teams:

Bandwidth
Pricing
Research Team

Data Center /
Infrastructure
