

TeleGeography

Asia-Pacific Research Analyst

We're expanding our Singapore-based research staff! Our new analyst will focus on collecting, processing, and analyzing data for the global telecommunications market with a focus on the Asia-Pacific region. Research topics include subsea and terrestrial cable systems, data centers, IP backbones, and other network infrastructure.

Responsibilities will include:

- Data gathering (generally through direct contact with industry players)
- Data management
- Development of new research contacts and maintaining existing ones at leading international carriers and data center operators
- Analysis of market trends
- Presentation and promotion of TeleGeography's research at international conferences and client meetings

About You

- Excellent academic background. Graduate-level academic experience is a significant advantage, but not a prerequisite.
- Intellectual curiosity. We look for individuals who are unafraid to jump into new fields of study and are interested in international networks.
- Outstanding writing and analytical skills with an ability to meet deadlines.
- Entrepreneurial spirit. An interest in developing new ideas and creating new relationships to expand business opportunities.
- Quantitative/database experience. Proficiency in Excel, SQL, or other data analysis platforms is a strong differentiator.

The following attributes are considered a plus:

- Comfort with foreign languages. This position will likely entail frequent exchanges with carriers and internet content providers in the Asia-Pacific region.
- General understanding of international telecommunications infrastructure.
- Love of maps, foreign cultures, governments, and economies.

About Us

We're a U.S.-based international telecom research firm known for its authoritative, data-driven research.

We offer a competitive salary and collegial atmosphere. If you're ready to put your research skills and industry knowledge to work in a growing, well-respected boutique research firm, we want to hear from you.

Send your resume and cover letter to Alan Mauldin at amauldin@telegeography.com.
